## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 2, 4 – 11, 13 – 43 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Examiner agrees with Applicant's arguments (amendment of June 6, 2005 on pages 11 – 13) where the prior art of Maurant et al., Kuettner et al. and/or Kusunoki does not teach or suggest to limitations of claims 1, 27 and 38 nor would it be obvious to combine any of the cited prior art to meet the limitations of the claims, thus the claims are allowable.

Stengel shows a multi-layer coupler transformer where the first coupler section comprises first and second spirals on the same surface and the second coupler section comprising third and fourth spirals on the second surface, further where the width of the intermediate portion of the second coupler appear equivalent to the end portions, thus not teaching or suggesting the limitations of the claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Stengel – shows a multi-layer transformer.
